

Human Computer Interaction (IT3060)

3rd Year, 1st Semester

Assignment 02

Project Title : Siam Florist
Group Number : 2023-WD-S1-03
Group Name : Tech Hunters

Submitted by : Gunasekara W.M.W.A.G.T.N.A.
Indusara J.D. L
Kokuhennadige C. K
Waduge T. R
Burah T.I. O

Submitted to
Sri Lanka Institute of Information Technology.

In partial fulfillment of the requirements for the
Bachelor of Science Special Honors Degree in Information Technology.

Unregistered Customer Transcript

Thisanka : Ok, Good evening, Mr.Thilan, and thank you for joining with us. My name is Tisanka Revindu and I'm going to ask some questions about according to this website. Also I'm going to record this conversation. Are you OK with that?

Thilan : Yeah, I'm ok

A : OK And welcome to Siam Florist website and I'm here to your thoughts about the website and what did you think when you first saw login and registration pages?

B : Uh, well it was OK I guess.

A : OK, anything that code to attention?

B : Uh yeah, the pages took a bit long to load, kind a annoying you know.

A : Got it. Slow loading page can be pain. So, when you click the click on the login or registration where the buttons easy to figure out?

B : Not really, I had to think a bit about what to do after clicking those buttons. But sign in, Signin up was Alright.

A : Yeah, thanks for letting me know and we will try to make the buttons clear.

OK Sir, now I'm going to give some tasks and can you go to the website and do it for me?

B : OK, let's proceed.

A : OK, your first task is register to the website and please go to the home page and click log in button.

B : Yeah, I'm already on the home page, I'm going to log out. Wait, Yeah I'm in the log in Page now. uh, where is the login button can't find it.

A : In the button of the page you can see Create account button and please fill the relevant information.

B : Yeah, I'm in the homepage now.

A : OK, OK Sir. Now did you check the website on your phone and any issues with that ?

B : Now. Yeah, I did. The site didn't fit along my phone. Things were all over the place and I had to zoom in and out several times. so annoying

A : Got it. And we will work on that mobile view. And by the way, did you find any way to contact us easily?

B : No, not really. I couldn't find contacting for when I need to.

A : Thanks for telling me and we will make it easier to reach us. And did you notice if the website look kind of different from page, page to page?

B : Uhh, Yeah things like colors and fonts change sometimes. It was a bit confusing.

A : OK, we will try to make things more consistent. Last thing, did you see any big picture that took forever to load and button that moved around ?

B : Now pictures were fine but buttons like next button seems to jump place sometimes.

A : Got it. We will fix those button issues and thanks a lot for sharing all this. Your feedback help us, make the website better.

B : No problem. I glad to help.

A : OK, thanks. We are working on it and if you need anything else just reach reach out. Have a great day.

B : Sure thing.

A : Thanks for asking and I hope the site gets even better.

B : OK

A : Thank you very much Sir.

B : OK, see ya.

Registered Customer Transcript

Lahiru : hello good afternoon Mr. kulith, I'm Lahiru. thank you for joining with me on this busy time. I'm going to ask you few questions based on simaflorist website. Also I'm going to record this conversation for our developing purpose. Are you okay with that?

Kulith : hello Lahiru, good afternoon. It's okay. I'm happy to answer your questions.

L: As a registered customer, you use this website frequently?

K: Not usually, some times I go to this website for buy some bouquet of flowers.

L: how much time you spent on the web site, last time you came here?

K: I think around 1-2 hours, I'm not exactly sure

L: when you login to the site, what's the first thing you did?

K: I'm go to roses category to buy some flower bouquet

L: it's easy to find what you looking for?

K: no, its very hard to find the one I looked for, interface is so bad and complicated to understand. there are too many flowers and there are no search bar also. so I can't find the flower bouquet easily, I have to look everywhere.

Lahiru: can I know about, what do you think on design of the flower ordering page and shopping cart page?

Kulith: the lay out is not much clear. Too much details to fill before buying. and color combinations are not eye catching. website name size also small. In shopping cart text separations are not enough. Some buttons are not clickable and very small.

L: Mr. kulith, now I'm going to give you some tasks. Can you do them on our website.

K: of cause, please procced.

L: first login to the site after that, go through roses category and find the name called "vase of roses"

(10 seconds later) do you find it sir, pictures look like 6 red roses.

K: it's hard to find, there are bunch of flowers in same name and same picture so I can't find it quickly. give me some time.

L: okay sir. (Seconds later) yeah sir that's the one. Shall we move to the next task. Sir, please fill the relevant columns and add flower to your cart.

L: ok now remove the flower order from the shopping cart.

K: How should I remove it?

L: So there's a remove, remove column and there's a button. Yeah, that's right sir. So that your task, thank you for your time.

K: You're Welcome.

L: Sir do you have any suggestions to improve and fix those problems?

K: Yeah yeah yeah, there are a lot of suggestions. Yeah there are lot of categories, there are no sub categories. Then it's hard to find the flower bouquets. If there are sub categories we can find flower bouquets easily. So those we have to click so much time on these buttons not much touchable, clickable and it's not see it's not working. It's very hard to

find in this thing in this website and here that website name, we can't even see it And there are their names are some of some of name, some names are very equal in name. We can't even choose the flower bouquet that we love. It's very hard to find things and that thing caught, caught and then payment place, it's very hard to add it to cart. And there are a lot of details to then And there is that style is not good for that and not attractive for the customers and it's very, it's not good interface. So the page should have to be develop more. So it should be good for your website in the future. Thank you.

L: We will try to improve this. Thank you very much for your time and your ideas. Have a great day sir, good night.

K: Ok, I'm happy to be apart of this. Thank you. Good night.

Florist Transcript

Chanuka :-good morning. Thank you Hasita for spending your valuable time on this. I will ask you some questions about edit profile and review page. Also I'm going to record this session for our developing purpose. Are you ok with that ?

Hasitha :- hello chanuka good morning. Its ok It doesn't matter, I will support you as best as I can.

Chanuka :- I hope you have used this site by now and have some understanding.

Hasitha :- Yes indeed I have used this site several times.

Chanuka :- ok let's start . Can you go to the edit profile page ? . Ok As a florist of this site, what do you think about the this edit profile page layout and design ?

Hasitha :- Of course. So, when I go to the "Edit Profile" page, I find that the layout is quite cluttered. we have face some boring feel this interface & because in modern web sites have a more a specific standard than this

Chanuka -: Could you please provide more details on the issues you are experiencing with this page?

Hasitha -: There are so many fields and options packed closely together, making it hard to focus on what I need to update. Many things need to change, the button size needs to increase. The font size should be increased.

Chanuka: ok hasitha let's go to the review page. Can you please let me know which specific issues you're facing while using the review page ?

Hasitha :- the navigation seems confusing. I can't really figure out how to get to certain pages. Also, the text on the website is really small, and I'm constantly zooming in to read it. It's pretty frustrating.

Chanuka :- Thank you for pointing that out . What other flaws do you see?

Hasitha :- of course. First off, the review submission form is a bit confusing to fill out. The fields are not labeled very clearly. Even if you post a review, it won't show

Chanuka :- ok hasitha We have already noted all your problems. We will solve all your problems. Thank you Hasitha for your support. Have a great day ! .

2. Usability Problems

- **Not easy to find items in category.**
- **Interfaces are so bad and complicated to understand.**
- **Too many flowers and their names are not very clear.**
- **No search bar.**
- **Footer and header section issue.**
- **Finding the flower bookie is not easy.**
- **Color combination is not good.**
- **Text separations are not good.**
- **buttons are not clickable and very small.**
- **Items are not manageable.**
- **Side pacing issues.**
- **Unclear layout.**

3. Variants of the interfaces/ Justification of the variants/ How the best design was selected

1. IT21303548 – Gunasekara W.M.W.A.G.T.N.A.

- Wireframes uploaded link: <https://drive.google.com/drive/folders/19ryuSfqZZBep0uN7jTF7SQur6y-pndat?usp=sharing>

Interface name	Version 1	Version 2	Reason why you have selected a specific a version	How do contextual inquiries get resolved
Home page	<p>User will be able have a good user experience and user can understand quick introduction of the system. Users can see what is in there and our feature productions and see product ratings and many more included on this page.</p> <p>Pros – * Good user experience for users and easy access for trending flower bouquets. Also, it is much easier to navigate through the page.</p> <p>Cons - * Users need to use a different page to find all the flower categories.</p> <p>*There isn't a search bar for the users.</p>	<p>By using this page users will be able to have a good user experience and the user can efficiently select the required category. On this page, we display trending flower bouquets. If the user got interested in the flower bouquets directly user can purchase those bouquets.</p> <p>Pros – * Good user experience for users and easy access for trending flower bouquets. Also, it is much easier to navigate through the page.</p> <p>*Very simple UI.</p> <p>Cons – * There isn't a search bar for the users.</p>	<p>Selected version – Version 2</p> <p>It is not a complex one. Very simply things in there. that one is user friendly more than version 1.</p>	<p>With this design, we have tried to minimize the complexity of the homepage. We designed a simple user friendly.</p>

Contact Us page	<p>This interface has contact in online social media and other socials platforms. And submit username, email, and contact number for contact with the delivery and many more others.</p> <p>Pros –</p> <ul style="list-style-type: none"> * Map in here. * Normally use social media link here. * If the user does not have social media, the user can contact mobile with us. 	<p>That one has a quick introduction of what is this and if user want to contact with system user submit those details.</p> <p>Pros – * Very easily contact with us using those details.</p> <p>Cons – * Only using email.</p>	<p>Selected version – Version 01</p> <p>Now technology is increasing. All have a social media account. That option is very good for the user.it is user friendly than version 2.</p>	<p>We design simple user interface with new technology.</p>
------------------------	--	--	--	---

My Tags	<p>The user can view customer's reviews one by one. Users can sign up to the site clicking by become a member button.</p> <p>Pros – *That have removed tags.</p> <p>*The user may easily get information about reviews.</p> <p>Cons - * The user must go to another page to add reviews.</p>	<p>Users want to tag pages it can be available and if user not want it can be removing it and user can add another tags.</p> <p>Pros - *That have removed tags.</p> <p>*The user can view the all reviews and can get information about the product.</p>	<p>Selected version – Version 01</p> <p>*From these two versions, I would like to select version one because users can easily view the customers' reviews more than in version 2 and in version 1 users can be a member also easily.</p>	<p>We reduce the complexity of the reviews page and make it easier for users to view the customers' reviews what they are looking for. To reduce complexity, we added a user-friendly view and to see reviews.</p>
Reviews Page	<p>This interface sees past review past users fill and user can review submit.</p> <p>Pros – * If user can like or comment on previous reviews.</p> <p>Submit User review.</p>	<p>User can review submit using nickname, summary of review and review.</p> <p>Pros -</p> <p>Cons –</p>	<p>Selected version – Version 01</p> <p>* It has past reviews and it very user-friendly than version2.</p>	<p>We design simple user interface with valuable things.</p>

2. IT20602000 – Indusara J.D.L.

- Wireframes uploaded link:
<https://drive.google.com/drive/folders/18LinbfKNWhj8l29dUuVZegwTuFaEH9YT?usp=sharing>

Interface name	Version 1	Version 2	Reason why you have selected a specific a version	How do contextual inquiries get resolved
Checkout page	<p>By using this page user can add his shipping address can select the payment method using the radio buttons. Users can visible a summary of the item that they purchased but this page will not display an image or quantity of the product.</p> <p>Pros – Users can select any payment method</p> <p>Cons - The user should add his payment and shipping details whenever he purchases an item. Users can't see the one item cost also. And this page is kind a messy for the user.</p>	<p>By using this page user can add his shipping info and also he can add any payment method details. When doing his payment user can select the relevant card. In the middle bottom of the page. Also user can see the relevant item that he/she purchased and the total amount that he should pay for that item.</p> <p>Pros – Users can add their payment method can use it anytime. He can view the ordered item image and the promo code also.</p> <p>Cons – the user have to navigate to a separate page to add his card details.</p>	<p>Selected Version – Version 2</p> <p>From these two versions, I would like to select version 2 because of the user friendly and the simple interface</p>	<p>Users request a simple checkout page So, we include all the features in a simple manner.</p>
Services page	<p>All the users can know the services of the company on this page.</p> <p>Pros - Users can see the services clearly in centered view.</p> <p>Cons – If users have different questions, they have to navigate to the contact us page.</p>	<p>All the users can know the services of the company on this page.</p> <p>Pros - Simplify the web page. Users can see different ways through the services.</p> <p>Cons – The users misunderstand sometimes what services paragraph represent what pictures</p>	<p>Selected version – Version 1</p> <p>From these two versions I would like to select version one because the page is less complex.</p>	<p>We reduce the complexity of the Our Service's page and make it easier for the user to find what they need without westing time. To reduce the complexity, we add eye catching pictures and more spaces between paragraphs.</p>

Sun Flower page	<p>Users can see products related to the Sunflower category and flower details such as flower name and price.</p> <p>Pros – Users can see images of Flowers, names, and prices. They can add Flowers to the cart by simply clicking the cart icon button. They can easily get products by sorting and searching. If users want to see more items they can simply click show more button.</p>	<p>Users can see products related to the Sunflower category and flower names.</p> <p>Pros – Users can see images of flowers and names. They can also see the small details of the flower. They can add products to the cart by clicking the cart button.</p> <p>Cons – Users cannot see product prices. They can't search flowers there. They have to navigate to more pages to see other flower items.</p>	<p>Selected version – Version 1</p> <p>From these two versions I would like to select version 1 because the page is attractive and less complex. In this interface users can find the product they need quickly and easily without spending much time.</p>	<p>We reduce the complexity of the Sunflower category page. Therefore, users can easily see flowers and it's details. So that the users can get product details quickly and add them to the cart.</p>
------------------------	---	---	---	---

3. IT21349188 – Kokuhenadige C.K.

- Wireframes uploaded link:
<https://drive.google.com/drive/folders/1cbLIkSY7nYQzG7NCf1QVHwX3hA-E-MW2?usp=sharing>

Interface name	Version 1	Version 2	Reason why you have selected a specific a version	How do contextual inquiries get resolved
Edit Profile page	<p>The user can see all account information.</p> <p>Pros – User can edit account information name, email & change password.</p>	<p>The user can see all account information.</p> <p>Pros – User can edit account information name, email & change password.</p>	<p>Selected version – Version 02</p> <p>From these two versions I would like to select version two because the page is less complex also users can edit for their information.</p>	<p>We reduce the complexity of edit profile page and make it easier for the user can change any information. they can edit their details quickly.</p>
Address Book	<p>By using this page user can add his address details. & user can change the address.</p> <p>Pros – user can see the address details.</p>	<p>User can see the contact information and address details. By using this page user can add his address details. & user can change the address.</p> <p>Pros – user can add default address details.</p> <p>Cons –The user should add contact information, address details and go to the another page to see product details.</p>	<p>Selected version – Version 02</p> <p>From these two versions I would like to select version two because the users can easily add contact information and address details.</p>	<p>We reduce the complexity of the address book page and make it easier for users to log in to the system</p>

Basket of Flowers page	<p>Users can see the products related to the basket of flowers page.</p> <p>Pros- Users can see images Of product name, and prices they can add to the cart by clicking the button. They can easily get products by sorting, filtering and searching.</p>	<p>Users can see products rating and name related to the basket of flower page.</p> <p>Pros-users can see images of products rating and names related to the basket of flower page.</p> <p>Cons-Users cannot see product prices and they cannot easily sort items.</p>	<p>Selected version- Version 02</p> <p>From these two versions I would like to select version two because the page is less complex because in this interface makes it easy for visitors to find the product they need quickly and easily without spending much time.</p>	<p>We reduce the complexity and can get easily see products.so that the users can get quick details and information easily</p>
-------------------------------	--	--	---	--

4. IT21267536 – Waduge T.R.

- Wireframes uploaded link: https://drive.google.com/drive/folders/1SmIYcF52jv8ebLg1XPtt2T_ZASn2mc9j?usp=sharing

Interface name	Version 1	Version 2	Reason why you have selected a specific a version	How do contextual inquiries get resolved
My Cart page	<p>Pros – Users can easily see what they add to the cart, and they can delete, like that product from the cart. They can change product quantity easily.</p> <p>Cons- The user must navigate to a separate page to update the cart</p>	<p>Pros – Users can see what they add to the cart, and they can delete it. Simplify the web page.</p> <p>Cons – The user must navigate to a separate page to update the cart. The user can't see my cart items separately.</p>	<p>Selected version – version 1</p> <p>*From these two versions I would like to select version one because users can easily Acquaint my cart products and details.</p>	<p>We simplify my cart page to enhance user-friendliness, making it more convenient for users to access product details and perform actions like updating and deleting items. This simplification involves the use of buttons and distinct item separation in the cart.</p>
Add to Cart page	<p>Pros – The user may easily get information about the product, such as price range and ratings. Users can easily add the details and can understand easily.</p> <p>Cons – The user must go to another page to see reviews. Users can see what they add to the cart and their details</p>	<p>Pros - The user can add product-giving details and can get information about the product.</p> <p>Cons – The user must go to another page to see reviews and users can't see ratings also.</p>	<p>Selected version – version 1</p> <p>*From these two versions, I would like to select version one because users can easily add details more than in version 2 and in version 1 users can get more information easily.</p>	<p>We reduce the complexity of the add to-cart page and make it easier for users to locate what they are looking for. To reduce complexity, we added a user-friendly form for add-to-cart and to see ratings and reviews.</p>

Rose Flowers page	Pros - Users can see images of products, names, and prices. They can add to the cart by clicking the button. They can easily get products by sorting, filtering, and searching.	Pros - Users can see images of products and names related to the birthday category. Cons – Users cannot see product prices and They cannot easily sort items.	Selected version – version 1 *From these two versions I would like to select version one because the page is less complex. Because in this interface makes it easy for visitors to find the product they need quickly and easily without spending much time.	We reduce the complexity and can get easily see products. So that the users can get quick details and information easily.
--------------------------	--	--	---	---

5. IT21274466 – Burah T.I.O.

- Wireframes uploaded link: <https://drive.google.com/drive/folders/1BaanTix1K9x9Z-pNfXw7DYWg4KD5gmsz?usp=sharing>

Interface name	Version 1	Version 2	Reason why you have selected a specific a version	How do contextual inquiries get resolved
Login page	<p>The user can enter a valid password and email to log in to the account or you can log into social platforms.</p> <p>Pros – Users can effortlessly access the system by entering their email and password.</p>	<p>The user can enter a valid password and email to log into the account.</p> <p>Pros - The user can easily log in to the system using the password and email.</p> <p>Cons – This UI does not have the 'remember me' option, requiring the user to enter their login credentials regularly.</p>	<p>Selected version – version 1</p> <p>I prefer version one out of these two options because it offers a straightforward design that makes it easy for users to log in to the system.</p>	<p>We have streamlined the login page to enhance user experience, simplifying the process of accessing the system.</p>
Register page	<p>If someone doesn't already have an account, they can make a new one by providing their name, email, and password.</p> <p>Pros – The user can easily create a new account using his/himdetails.</p> <p>When a user attempts to sign up, the UI greets them warmly and provides a brief introduction to the website.</p>	<p>If the User doesn't have an account, he/ she can create a new account using the name, email, and password.</p> <p>Pros - The user can easily create a new account using his/himdetails.</p>	<p>Selected version – version 1</p> <p>I prefer version one out of these two options because it offers a straightforward design that makes it easy for users to log in to the system.</p>	<p>We reduce the complexity of the signup page and make it easier for users to log in to the system.</p>

My Account page	<p>The users can see all account information.</p> <p>Pros – Users can see account info, orders,address book, and production reviews.</p>	<p>The users can see all account information.</p> <p>Pros – Users can see account info, orders,address book, and production reviews.</p> <p>This UI is cleaner and clearer when compared to version 1</p>	<p>Selected version – version 2</p> <p>I prefer the second version because it's simpler, and users can easily edit their information.</p>	<p>We simplify the dashboard page so users can quickly find what they need without any hassle. They can also easily edit their details to make things simpler.</p>

5. Time schedule (Gantt chart)

TASK	WEEK 5	WEEK 6	WEEK 7	WEEK 8	WEEK 9
Create interface sketches for each specific interface.					
Engage in the process of identifying usability issues and determining optimal interface designs.					
Generate two distinct variant sketches for each interface.					
Conclusively decide upon the most superior design.					
Conduct a comprehensive evaluation of the strengths and weaknesses inherent in each interface.					
Choose the most optimal interface and provide a well-substantiated rationale for the selection.					
Compose the transcript for the video content.					
Prepare the transcript documenting interactions between a customer and a customer service representative.					
Aggregate all pertinent documentation contributed by team members					
Formally submit the completed assignment.					

6. Ideation techniques used.

Ideation technique is a creative process of generating new ideas that can be realized through a variety of Ideation technique, such as for example brainstorming, Mind Mapping , SCAMPER, and Brainwriting. In here We have used below techniques.

01. Brainstorming

Brainstorming is one of the ideation techniques that we use when designing the interfaces.it was helpful for us in engaging as a group to discuss and analyze the issues with website that we chose through collective thinking and listening to ideas of our group members we designed the best and most visual appealing interface for each of our pages on the website.

02. Worst Possible Idea

This was the best technique to identify weaknesses in our interfaces. All members had some kind of idea which would be terrible to implement. This technique helped us to identify them early on and paved the way to design user friendly interfaces.

03. Brainwriting

We communicate regularly through online meetings and then document our ideas.
